We are an SAP Design, Build, Sell and Service partner providing services to clients across North America, and we are leading by example by running S/4. Our focus is on the Enterprise User Experience. We are leaders in SAP Analytics Cloud, SAP Fiori, SAP Business Technology Platform, SAP Mobility and SAP S/4HANA.

We believe in:

- Providing beautifully simple solutions to complex business problems

- The enterprise user experience

- Increasing business clarity, velocity and margin

- **Buying versus Building**

- **Leading by example – we don't just implement S/4, we run it ourselves**

About Our Partner Package Offering

By pairing customizable capabilities with an assemble to order packaged solution, we reduce system downtown times, lower associated costs and decrease risk during implementation of SAP Asset Manager for S/4HANA on-Premise and ECC systems. ConvergentIS is among the first of SAP's partners to fully embrace the SAP S/4HANA platform and SAP ERP to drive our clients towards industry best practices and attain operational excellence across all lines of business.

Why ConvergentIS for SAP Asset Manager with S/4HANA on-Premise and ECC?

- Reduce your system downtime with an assemble to order SAP Asset Manager package

- Decrease associated systems risks with new implementations

- Assemble to order means lower associated cost

- Support your business by running SAP best practices

- Reduce downtime and maintenance backlog

- Extend and improve asset life and reliability

- Minimal IT costs and maintenance
