We are an SAP Design, Build, Sell and Service partner providing services to clients across North America and we are leading by example by running S/4. This enabled us to implement and SAP Analytics Cloud, quickly and easily.

Our focus is on the Enterprise User Experience and we are leaders in SAP Analytics Cloud, SAP Fiori, SAP Cloud Platform, SAP Mobility and SAP S/4HANA.

We believe in:

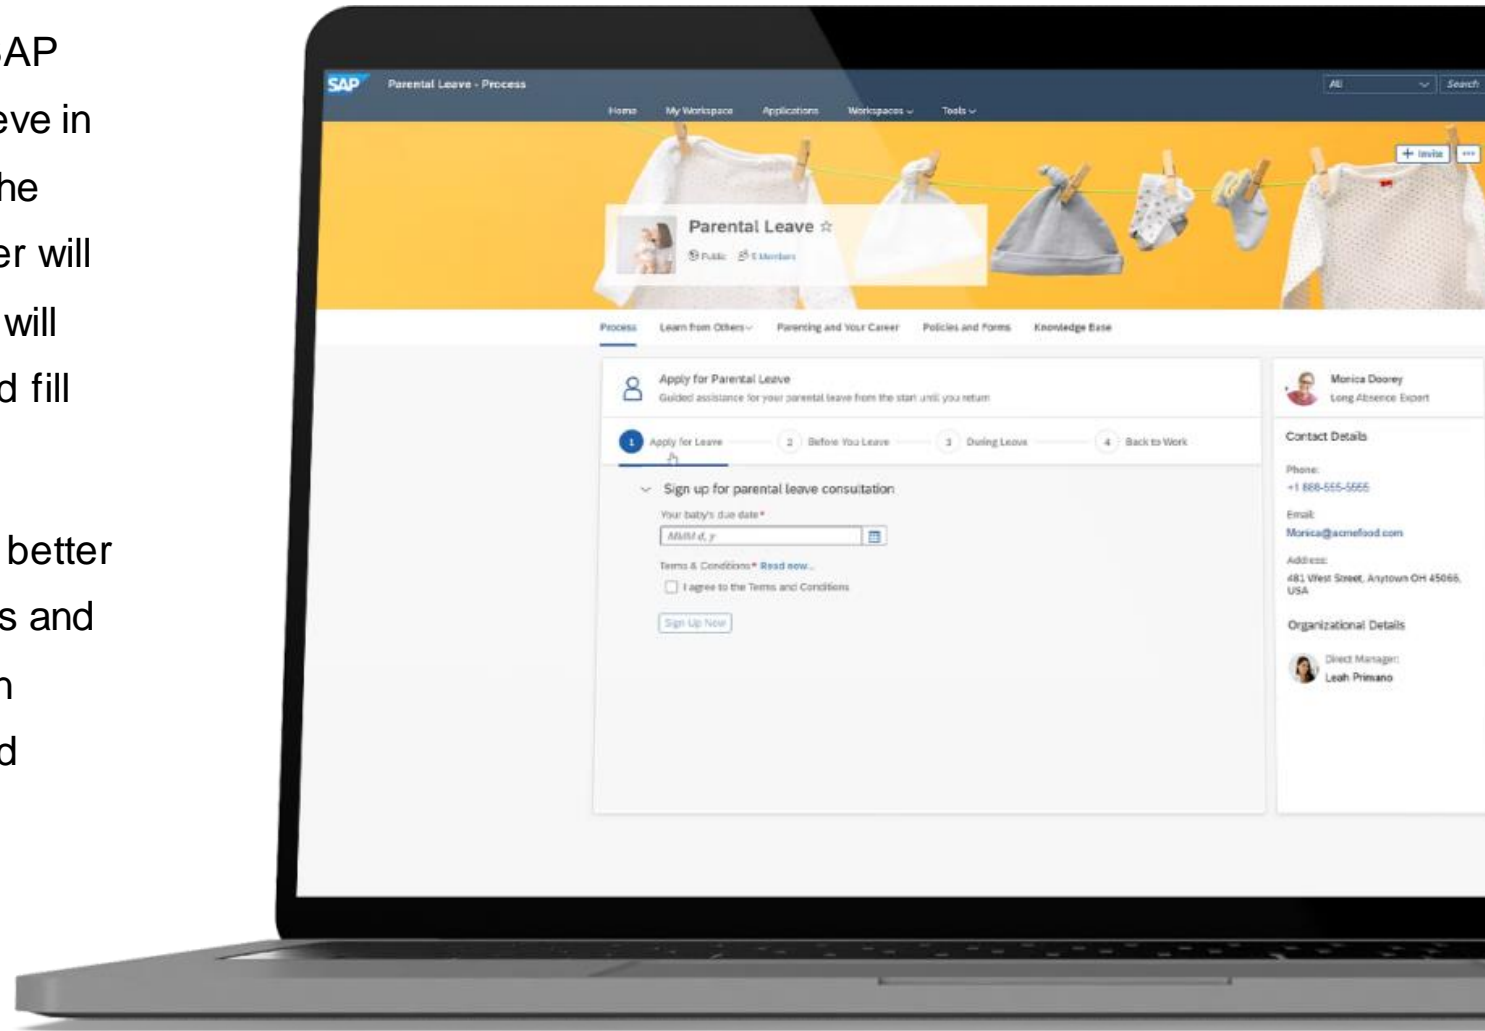

- Providing beautifully simple solutions to complex business problems
- The enterprise user experience
- Increasing business clarity, velocity and margin
- **Buying versus Building**
- **Leading by example – we don't just implement S/4, we run it ourselves**

About Our Partner Package Offering

We aren't just here to help you successfully deploy SAP Business Technology Platform. As a partner, we believe in helping you understand how you can further unlock the potential of SAP. While a good implementation partner will help you with a successful migration, a great partner will take the time to understand how your team works and fill the gaps that exist in their processes.

Leverage Launchpad/ Work Zone services to build a better digital experience for employees, customers, partners and other businesses. At ConvergentIS, we are experts in driving adoption and simplifying SAP solutions so end users remain productive and happy!

Why
Convergentis

**for Enhancing the Digital
Workplace Experience using SAP
Work Zone?**

More than a platform-as-a-service

Improve ROI

- ✓ Let the SAP Cloud Services take care of automatic updates and assure your uptime and performance. With the Business Technology Platform, your risk of downtime is significantly reduced, assuring peace of mind and no disruptions to your users and customers.

Unify Your Business Processes

- ✓ Integrate both SAP and non-SAP systems, so data can be shared. This creates a more holistic view of your business without starting from scratch.

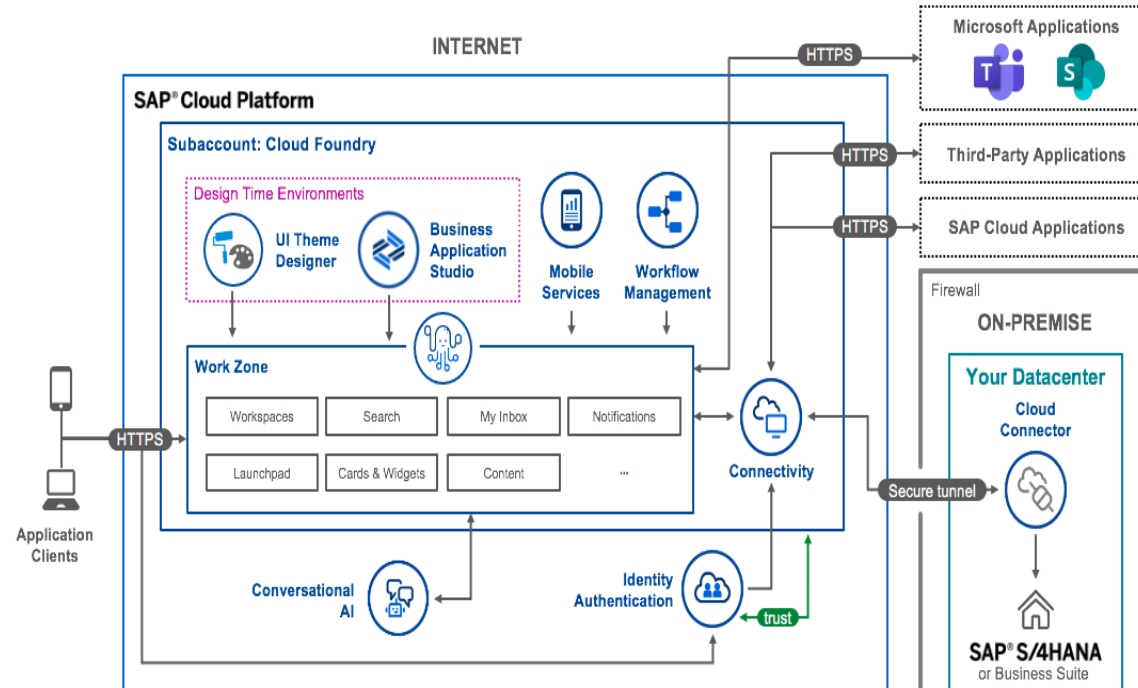

Avoid Downtimes

- ✓ Let the Cloud take care of updates automatically. With an on-premise solution when your system goes off-line your business turns off too. With Cloud, your business can remain stable without starting from scratch.
